Journal of Outdoor Recreation and Tourism (JORT) offers a dedicated outlet for research relevant to social sciences and natural resources. The journal publishes peer reviewed original research on all aspects of outdoor recreation planning and management, covering the entire spectrum of settings from wilderness to urban outdoor recreation opportunities. It also focuses on new products and findings in nature-based tourism and park management. JORT is an interdisciplinary and transdisciplinary journal. Depending on the topic of investigation, articles may be positioned within one academic discipline, or draw from several disciplines in an integrative manner, with overarching relevance to social sciences and natural resources. JORT is international in scope and attracts scholars from all reaches of the world to facilitate the exchange of ideas. As such, the journal enhances understanding of scientific knowledge, empirical results, and practitioners' needs.
